EXPERIENCE

Web Developer Intern

Sakit Systems(remote)

JUNE 2025 - AUGUST 2025

- Assisted in developing and maintaining websites and web-based applications
- Contributed to the creation of responsive and user-friendly interfaces
- Worked with the development team to identify and fix website issues
- Participated in testing and improving website performance and usability
- Supported updates and content integration for existing web pages

Graphic Designer

Treasure Center

JUNE 2025 - OCTOBER 2025

- Designed visually engaging posters and social media graphics aligned with brand identity and campaign objectives.
- Created digital layouts using design software, ensuring high-quality visuals optimized for various social media platforms.
- Collaborated with the client to understand content requirements and incorporate feedback into final designs.

PROJECTS

Medcare – Healthcare Web Application

React, Vite, Tailwind CSS, Supabase, Google APIs

- Developed a responsive healthcare web app with AI-powered medical text analysis for simplified patient understanding.
- Integrated Google Maps and geolocation to locate nearby health centers with interactive navigation.
- Implemented user authentication, data storage, and medical history tracking using Supabase.
- Built features including doctor directory, simulated payments, and Google Calendar medication reminders.

Certify – Certificate Generation & Email Automation System

Next.js, TypeScript, Supabase, pdf-lib, Nodemailer

- Built a full-stack system to generate and distribute personalized certificates using PDF templates and CSV-based recipient data.
- Implemented dynamic PDF customization, preview functionality, and bulk processing with validation.
- Integrated Supabase for storage and database management, including tracking delivery status and outcomes.
- Developed automated email delivery using Nodemailer with real-time progress monitoring.
